(a) Competitors within the current threshold
Before scoring
10 unscored + 0 pending
C = 10
Score 3 near documents
2 time units
After near scores
7 unscored + 3 pending
C = 10
Qualify 1; threshold retires 7
1 time unit
After R commits
2 unscored + 0 pending
C = 2
(b) Credit follows execution
Vector–probe episode: gain 0, time 2
R settles its cohort; incurred cost stays here.
Relational episode: gain 8, time 1
One qualification + seven threshold retirements.
